- Valuables and medication must be carried in your carry-on baggage; under no circumstances are they to be packed in luggage to be delivered or put in the vessels hold.
- For safety reasons fishing rods cannot be taken into passenger cabin areas. They will be placed in the vessels hold by the crew and must be collected by yourself from our crew upon disembarkation from the vessel.

Rottnest Island

Rottnest Island sits just offshore from the city of Perth, in Western Australia. A protected nature reserve, it's famous for being the home to the quokka, a small wallabylike marsupial. White-sand beaches and secluded coves include the basin, with its shallow waters, and Thomson Bay, the main hub and ferry port.

FACTS & TIPS

- Rottnest Island is 11 km long by 4.5 km wide and takes approximately 3-5 hours to ride around the island.
- During summer, bays on the south offer protection in the mornings from the prevailing easterly winds. By afternoon, the famous Fremantle Doctor (afternoon sea breeze) comes in from the southwest making the bays to the north such as The Basin, Parakeet Bay and Little Armstrong Bay the most enjoyable.

WHEN TO VISIT

SEPTEMBER – APRIL

Most popular time to visit the island for swimming, snorkelling and other outdoor pursuits. Whales can often be spotted from September to mid-November.

MAY – AUGUST

Temperatures are still fairly mild in winter. Winter is drier and often a few degrees warmer than it is on the mainland.
